Profile

As a recent graduate, I would love to be part of a project in which I can put into practice all the knowledge I have learned so far, but also, in which I can gain experience and continue developing myself personally and professionally.

Thanks to having worked for the professional services firm DELOITTE, I have not only been able to acquire extensive experience in the audit & assurance area, but also, I have developed skills such as organization, teamwork, time management skills, and, above all, the ability to respond to unexpected problems.

My greatest strengths are motivation and the desire to learn. Also, my ability to adapt to any situation always offering my best.

Experience

2019 - 2020
oct. may.

Deloitte España SL.

Audit & BPS Internship

- I carried out the financial and accounting review of many Ibex 35 companies, including consolidated companies.
- I worked in the verification, preparation and development of audit reports for diverse companies such as INDITEX, INDRA, Among Others.
- I was leading a new project called "Deloitte Connect", where I worked with highly relevant companies in Spain such as INDITEX, FERROVIAL or ALSA.
- I developed an efficient communication work among the various stakeholders from different customers, to partners and support groups.
- I successfully managed the inventory of several companies of the firm.
